LISBOA, PORTUGAL

SUMMARY

Fullstack Developer with hands-on experience in backend development using Java and Spring Boot and frontend development with React and Next.js. Experienced in building RESTful APIs, integrating PostgreSQL databases, and managing containerized applications with Docker.

SKILLS & ABILITIES

Backend: Java, Spring Boot, RESTful APIs, layered architecture

Frontend: React, Next.js, responsive web applications

Databases: PostgreSQL, SQL, relational schema design

DevOps & Tools: Git, Docker, Kubernetes, AWS, CI/CD pipelines, Linux

Documentation: Swagger / OpenAPI

EXPERIENCE

Intern Back-end | Year2K

06/2025 - 09/2026

Contributed to building a customizable business management application in Java + Spring Boot for a car sales company. Learned container management using Kubernetes and deploying applications on AWS.

Intern Web Developer | ISEC

03/2025 - 06/2025

Designed and developed a website for the Student Mental Health Program on campus, using Figma, HTML, CSS, and JavaScript.

EDUCATION

Degree in Software engineer | ISTECLisboa

10/2025 - Current

The degree focuses on strong base knowledge and modern programming skills.

CTESP Multimedia Product Development | ISTECLisboa

09/2023 - 09/2025

The course focused on practical, project-based learning, covering essential skills such as C /C++ programming, HTML, CSS, MySQL database management, game development in C#.

Software Engineer | 42 Lisboa

09/2023 - 09/2025

Peer-to-peer learning program focused on low-level programming and problem solving. I worked extensively with Git and the Unix shell, and developed strong skills in C.
